

CHAS ACADEMY

FULLSTACK JAVASCRIPT

AUG 2023 - JUNE 2025

Currently, I am studying Fullstack JavaScript Extended at Chas Academy. Over the next two years I will develop advanced skills in web development. After graduation I will have experience working on projects using agile methods, developing both front- and backend using JavaScript, Vue.js, React.js and TypeScript.

ADVENICA

LIA-INTERN

JAN 2025 - MAY 2025

I am currently interning at Advenica in Malmö where I get the chance to apply my knowledge of web development and gain good experiences that I can carry with me throughout my working life. At Cross Domain Solutions I am responsible for the development of the web-based documentation of Advenica's products.

EIG

PROJECT MANAGER

AUG 2021 - JAN 2022

During my internship at European Integration Group in Istanbul I was responsible for three different youth exchanges in Turkey as a discussion leader, where I planned and implemented relevant activities. I was responsible for the communication, budget and travel planning of over 120 young participants in our projects, as well as writing the final reports.

MALMÖ UNIVERSITY

IMER BACHELOR DEGREE

AUG 2019 - JUNE 2022

My bachelor's programme International Migration and Ethnic Relations gave me deep insight into dealing with migration and diversity-related issues such as asylum law, segregation, discrimination, social cohesion, globalisation and integration.

SANDVIK

FORKLIFT DRIVER

AUG 2019 - MAY 2023

For roughly four years I worked part time as a forklift driver at a large warehouse in Svedala. There, I have learned how to perform under pressure and multitask with both physical and administrative tasks. I assisted and taught during the company's transition to SAP.

MALMÖ UNIVERSITY

RESEARCH ASSISTANT

JAN 2020 - SEP 2021

I have worked with two PhD students at MAU as a research assistant, transcribing and translating interviews for studies relating to Ethnic Relations and Social Science. Thus far, it has been a great opportunity to familiarize myself with the early steps of research projects, in hopes of conducting my own someday.

ABOUT ME

I am a curious web developer based in Malmö who is constantly looking for new challenges. Problem solving, creativity, and optimism are my main strengths. I am looking for a job where I can constantly develop, learn from others, and contribute with dynamic solutions to complicated problems.
